Linksys XAC-series

- Establish a connection between the device and the router via network cable or Wi-Fi (if there's a WIFI password you have to check bottom of the router. If you turn the router over, you should see a sticker, and one of the pieces of information should say something like "Wi-Fi Password" or "WPA passcode.")
- Open your web browser and type the default IP Address 192.168.1.1 in the address bar

• Enter admin password then click Sign in
